Purpose

This template is used to make a [Monopoly](#) board layout. It can be used for a standard board, yet is robust enough to handle alternate colors, nonstandard layouts and even the mega-boards with additional spaces. Below is an example of what this template produces.

My Sample Board

Free Parking	Kentucky Avenue \$220	Chance	Indiana Avenue \$220	Illinois Avenue \$240	B&O Railroad \$200	Atlantic Avenue \$260	Ventnor Avenue \$260	Water Works \$150	Marvin Gardens \$280	Go To Jail
New York Avenue \$200										Pacific Avenue \$300
Tennessee Avenue										North Carolina

\$180										Avenue \$300
Community Chest										Community Chest
St. James Place \$180										Pennsylvania Avenue \$320
Pennsylvania Railroad \$200										Short Line \$200
Virginia Avenue \$160										Chance
States Avenue \$140										Park Place \$350
Electric Company \$150										Luxury Tax (pay \$100)
St. Charles Place \$140										Boardwalk \$400
In Jail/Just Visiting	Connecticut Avenue \$120	Vermont Avenue \$100	Chance	Oriental Avenue \$100	Reading Railroad \$200	Income Tax (pay \$200)	Baltic Avenue \$60	Community Chest	Mediterranean Avenue \$60	Go (collect \$200)

Important note: If you're putting together a board detail for Licensed and localized editions of Monopoly, don't use this template. Use the Monopoly board detail template instead.

Usage/Editing

 **To make a custom Monopoly board, DO NOT edit this template. Copy the template code below, paste into your article or user page edit window, *then* follow the instructions for editing.**

Below is the template code (with standard property data filled in) that you can use to produce a board layout. It would be best to copy it directly, paste it into your editing window and edit it to produce another Monopoly board. But before you do, there are some important notes you should read. So scroll down and review the rest of this documentation.

Colors

Standard Monopoly colors are as follows...

SaddleBrown	DarkOrchid	Red	Green
SkyBlue	Orange	Yellow	Blue

Leaving a color value blank results in no color swatch at all.

To change any of the property colors, just add a color like so...

```
|Color_301 = #32CD32   |Space_301 = My Property Name

```

or

```
|Color_301 = LimeGreen |Space_301 = My Property Name

```

You can use hex codes or standard color names. Dozens of colors can be found at Wikipedia's [Web colors](#) article, and at the [HTML Color Names](http://www.w3schools.com/Html/html_colornames.asp) (http://www.w3schools.com/Html/html_colornames.asp) page at w3schools.com.

The most common color variation is the property group **Mediterranean Avenue** and **Baltic Avenue**. On many boards this group is **Indigo** instead of **SaddleBrown** . To make it indigo, use the color name **Indigo** and add it to the **Color_101** and **Color_103** parameters...

```
|Color_101 = Indigo      |Space_101 = Mediter-ranean Avenue<br>$60
|Color_102 =             |Space_102 = Community Chest
|Color_103 = Indigo      |Space_103 = Baltic Avenue<br>$60

```

Wikilinks

Of course, add wikilinks where appropriate:

```
|Color_208 =           |Space_208 = [[Pennsylvania Railroad]]<br>$200

```

Edition & Banner

Edition is the text displayed along the top of the board. You may omit this by leaving that variable blank. **Banner** is the red banner text that is displayed in the center of the board. Comes in handy if your edition is "SUPEROPOLY" or something like that. To prevent the banner from rendering at all, leave the banner variable blank.

Non-standard layouts

Looking at the template, standard layouts are fairly self-explanatory, but if you start getting into non-standard layouts, there are a couple things you should be aware of.

First, if the board is anything other than the standard 40 space layout (9 per side plus 4 corners) you'll have to alter one or both of the variables **spaces_horizontal** and **spaces_vertical**. These correspond to the number of spaces *between* the corners. The template can handle as little as 1 and as many as 12 spaces per side.

Second, note that the property names section is divided into four parts... one for each side of the table starting with (what is normally) Mediterranean Avenue and proceeding clockwise. Three of these sections are arranged in the template as one would expect. However, the second (the normally purple (DarkOrchid) and orange side) is a little different. The properties are listed in clockwise order, but the listing is populated to the bottom rather than from the top. (This was unavoidable due to the way HTML tables render and in the interest of keeping things as simple as possible.)

As an example, below is a filled out template for the Monopoly Junior board. It's a perfect example of a non-standard layout:

```
{Monopoly board layout
|Edition = '''[[Monopoly Junior]] (U.S. version)'''
|Banner = MONOPOLY JUNIOR

|corner_1 = '''Go'''<br>(collect $2 pocket money)
|corner_2 = [[Cafe]]
|corner_3 = Uncle Pennybag's Loose Change
|corner_4 = Pay $3 To Take The Bus To The Cafe

|spaces_horizontal = 9
|spaces_vertical = 5

|Color_101 =           |Space_101 = [[Chance cards|Chance]]
|Color_102 = Indigo     |Space_102 = Balloon Stand<br>$1
|Color_103 = Indigo     |Space_103 = Candy Floss<br>$1
|Color_104 =           |Space_104 = [[Chance cards|Chance]]
|Color_105 =           |Space_105 = Yellow Line Railway (Roll Again)
|Color_106 = SkyBlue    |Space_106 = Puppet Show<br>$2
|Color_107 = SkyBlue    |Space_107 = Magic Show<br>$2
|Color_108 =           |Space_108 = Pay $2 To See The [[Fireworks]]
|Color_109 =           |Space_109 = [[Chance cards|Chance]]

```

And here his how the Monopoly Junior board renders:

Monopoly Junior (U.S. version)

Uncle Pennybag's Loose Change	Chance	Video Arcade \$3	Haunted House \$3	Chance	Blue Line Railway (Roll Again)	Helicopter Ride \$4	Pony Ride \$4	Pay \$2 To See The Water Show	Chance	Pay \$3 To Take The Bus To The Cafe

Mini Golf \$3											Dodgems \$4
Water Slide \$3											Big Wheel \$4
Green Line Railway (Roll Again)	MONOPOLY JUNIOR										Red Line Railway (Roll Again)
Paddle Boats \$2											Loop The Loop \$5
Merry-Go-Round \$2											Roller Coaster \$5
Cafe	Chance	Pay \$2 To See The Fireworks	Magic Show \$2	Puppet Show \$2	Yellow Line Railway (Roll Again)	Chance	Candy Floss \$1	Balloon Stand \$1	Chance	Go (collect \$2 pocket money) ←→	

Layouts for Mega boards or other odd boards work in a similar fashion.

Have fun!
